If no, what challenges did you encounter?

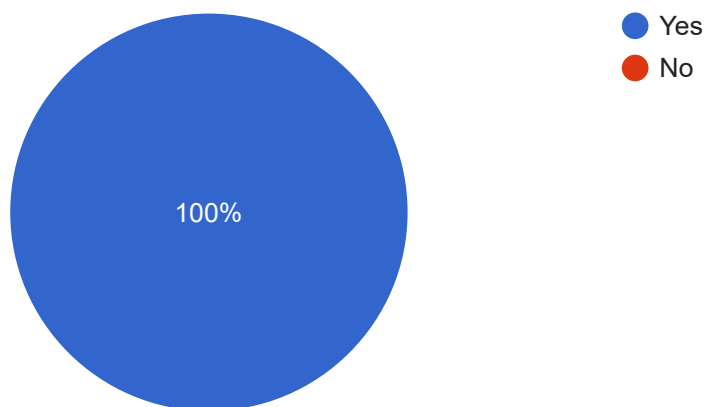

1 response

The app stopped working entirely at some point and I had to route myself

Did you successfully capture a screenshot of the full route, including departure and arrival sections?

On a scale of 1 (lowest) to 5 (highest), how would you rate your experience mapping and traveling using Gaia?

3 responses

Average rating (3.33)

Do you have any other feedback or suggestions related to this activity?

2 responses

I had to keep looking at the app while driving. It gave nothing about route corrections or notifications.

Also, I'd like to have the route be deleted/hidden from the map when I finish it.

The experience was really good, so I thought 5 stars was fitting, but I still would need to test it out a lot more before I felt comfortable using it over a more popular option
